An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The Abstract was amended as follows:

-- An arrow hold down for use with a compound bow having bow string cables and an arrow rest and a cable guard bar mounted above the arrow rest, the cable guard bar extending rearward from ~~said~~ the bow and having a cable block on ~~said~~ the cable guard bar. The arrow hold down comprises a pivot block secured to the cable guard bar and a holding apparatus in the pivot block. The holding apparatus comprises a forwardly extending arm with a tip to press against an arrow on the arrow rest and a rearwardly extending trigger. The trigger has a transverse portion that is struck by the cables of the bow as an arrow is shot. The arrow is held on the arrow rest by the tip of the forwardly extending arm. The tip is disengaged from the arrow by the motion of the cables or bowstring as the arrow is shot from ~~said~~ the bow. --

Art Unit: 3712

The following is an examiner's statement of reasons for allowance: The prior art does not disclose an arrow hold-down for a compound bow, including a pivot block secured to the cable guard bar, and a holder pivotally mounted in the pivot block, the holder including a forward arm having a tip which can press down on an arrow seated on the arrow rest; and a rearward trigger having a portion which can engage the bow string as the arrow is shot, to disengage the tip from the arrow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
